Art Unit: 3611

1. Claims 11-14, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 11, lines 12-20, applicant recites transmission faces that include a “first engagement face” and a “second engagement face”. However, the term “engagement face” is not used in the specification, so it is not entirely clear to what disclosed structure this term refers. Also, in lines 22-24, applicant claims the transmission faces including “first power transmission faces” and “second transmission faces”. It appears that the “transmission faces” are the same structure as the “engagement faces”, therefore, applicant is not consistent in the terminology used. Also, in line 18-19, applicant claims the engagement arms “increasing in width from the first engagement face to the second engagement face”. However, the presently claimed embodiment has elastic member arms forming a chevron shape, not arms of increasing thickness. Therefore, applicant appears to be improperly claiming a hybrid of different embodiments. Claims 21 and 22 include similar claim language.

2. Claims 1-10 and 17-20 are allowed.

3. Applicant’s arguments with respect to claims 11-14, 21, and 22 have been considered but are moot because the arguments do not apply to any of the grounds of rejection in the current Office Action.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3611

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
